ON THE TRUCK

TOUGH. DURABLE. LONG-LASTING.

There are countless ways in which Minimizer™ ON THE TRUCK products stand out from the competition. However, with nearly four decades of first-hand knowledge and experience gained from producing Tested & Tortured™ Poly Fenders & Bracket Systems, Tool Boxes, Mud Flaps, and Slick Plates, it is no surprise that most customers describe our brand using just two words...

THE BEST.

Innovation is the name of our game, which is why you will find our newest products – Fast Flaps, Light Panels, and Light Boxes – right next to the original Poly Fender. Each is constructed utilizing only the highest quality materials. Our proprietary formulas and thermoforming processes result in products that will withstand the daily abuse of demanding job-sites and unforgiving roads, all while being backed by the best warranty in the industry - the Minimizer Lifetime Guarantee!

With updated industry safety measures creating front-page news, our brand demands that Minimizer products are the standard to which others are compared. Because owner/operators and fleets are more conscientious about weight, as well as spray and debris control, Minimizer engineers never stop testing our products. Our process is ongoing to ensure that we stay ahead of an industry that is constantly evolving, and we recognize safety, performance, and proper equipment maintenance have a direct connection with the bottom line.

Minimizer products combine durability, weight-savings, and a legacy few others can match. We take pride in our products the same way drivers take pride in their trucks. This is why so many install Minimizer Products ON THE TRUCK, because they only want the best.

Need more proof? Head to WWW.MINIMIZER.COM and listen to actual drivers and fleet owners talk about their Minimizer products. We suspect that once you purchase your own, you will be a fan, too.

MINIMIZER MATERIAL OPTIONS

Minimizer offers a large variety of semi-truck fender styles, colors and material options. With an unmatched reputation of quality, durability, and style; our fenders will enhance your truck's appearance and increase it's lifespan while protecting precious loads and cargo. Our industry leading fender line is manufactured using proprietary composite materials and thermoformed using exclusive technology along with over 35 years of firsthand industry and manufacturing expertise. When dented or crushed Minimizer fenders bounce back into their original shape. The composite materials are extremely durable, impervious to salt and corrosion, and have been tested to withstand temperatures ranging from -100° F to 197° F.

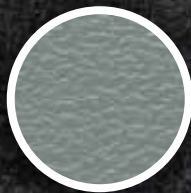

MINIMIZER STANDARD MATERIAL OPTIONS will NEVER NEED PAINT, NEVER FADE, NEVER RUST, AND NEVER CRACK! The color is molded throughout the sheet to hide the the daily abuse of demanding jobsites and unforgiving roads!

MINIMIZER UNIQUE MATERIAL OPTIONS go head-to-head with "shiny metal & custom fiberglass fenders" that will only weigh your truck down and inevitably bend, rust and break! Get the remarkable shine and reflection of metal fenders or the custom aftermarket look, combined with the superior durability of all Minimizer products!

ORIGINAL PLASTIC BOLT-ON KIT

THE BEST FENDER BRACKET SYSTEMS IN THE INDUSTRY
HERE'S WHY: **ULTIMATE DURABILITY**

- DESIGNED FOR FLEXIBILITY TO SOFTEN ROAD VIBRATION
- 100% COMPOSITE MATERIAL WILL NEVER STRESS CRACK
- NEVER NEEDS PAINT & WILL NEVER RUST OR CORRODE

The competition gives you metal brackets with composite fenders...
WHY? We do it right, you get a nearly indestructible bracket with your Minimizer Fender!

You need to have the right tools for the trade, right? You know that already, you bought Minimizer Fenders! What would nearly indestructible fenders be without the industry's toughest and most reliable brackets to match?

You need brackets that won't bend out of shape with the slightest tap or break and do nothing but cost you hard earned money. At Minimizer our Fenders & Bracket Systems are Guaranteed for Life! That's good math for you! How can Minimizer make such an offer? It's simple, we have total confidence in the design and performance of our fenders and bracket kits.

Minimizer Brackets are designed for strength and they have remarkable staying power - when bumped or bent they "give" slightly and spring back into shape without dents or paint chips. These brackets will last as long as you own your Minimizer Fenders - we guarantee it!

Available in Standard Black, Mirror Finish, Carbon Fiber, and Liquid Platinum!

PADDLE BRACKET BOLT-ON KIT

THE BEST FENDER BRACKET SYSTEMS IN THE INDUSTRY
SLEEK NEW LOOK: **SAME DURABILITY**

- EASIER INSTALLATION AND REDUCES SUSPENSION BULK
- 100% COMPOSITE MATERIAL WILL NEVER STRESS CRACK
- NEVER NEEDS PAINT & WILL NEVER RUST OR CORRODE

The competition gives you metal brackets with composite fenders...
WHY? We do it right, you get a nearly indestructible bracket with your Minimizer Fender!

We thought long and hard about how to improve our bracket systems. We set out to duplicate the durability and ability to absorb impact of the original Standard Plastic Bolt-on Bracket System with a low profile custom look.

The Minimizer Paddle Bracket System is designed to be mounted directly to the frame which eliminates the need to use spacers in most cases. The sleek & compact profile allows the bracket arm to fit lower on the frame rail if needed, creating more clearance between the frame and the fifth wheel plate. All of the fastening hardware is hidden beneath the fender creating a more streamlined and aesthetically pleasing look.

But don't let it's good looks fool you, all of Minimizer Bracket Systems have been Tested and Tortured to ensure that it will meet the performance expectations of demanding jobsites and unforgiving roads.

All Minimizer Fender Bracket System Installation Kits come with the applicable mounting hardware for proper installation:

- Bracket Arm Assembly
- Plastic Center Bracket Assembly (Plastic Arm mounted to Steel Angle)
- Plastic Angle/Height Support
- Mounting Flanges, Mounting Bolts, and Spacers
- All Bolts, Washers, and Nuts

LIFT AXLES BRACKETS

- Designed specifically for 5" round lift axles.
- Easy bolt-on design for a quick installation.
- Available for single wheel applications.
- Lift Axle Fenders are also available.
- Fenders are molded for a specific tire size.
- Please reference Part# BSHORTLIFTAX
- Bracket Kit clamps on to a 5" round axle allowing the fender to raise and lower with the axle.

VISIT WWW.MINIMIZER.COM FOR MORE INFORMATION ON LIFT AXLE BRACKET OPTIONS

STEERABLE BRACKETS

- Designed specifically for steerable axles.
- Easy bolt-on design for a quick installation.
- Over 20 different kits are available depending on the style and brand of your axle.
- Steerable Axle Fenders are also available.
- Call 1-800-248-3855 for part numbers and availability.
- Steerable kits are made to bolt on using existing holes on the brake assembly allowing the fender to raise, lower and steer with the wheel.

VISIT WWW.MINIMIZER.COM FOR MORE INFORMATION ON STEERABLE AXLE BRACKET OPTIONS

MINIMIZER PRODUCTS: **TOOL BOXES**

Minimizer Tool Boxes - like our fenders – are tough enough for the most demanding work sites and weather. Made of solid roto-molded 100% composite materials our tool box will never rust, crack or need paint. Don't let the scale fool you – these boxes are no lightweights. They're tougher than metal boxes weighing 10 times more: and the $\frac{3}{4}$ " gutter and Seal Tight™ weather stripping means Minimizer Tool Boxes are nearly weather-proof.

Our tool boxes mount easily to most trucks in minutes. Heavy-duty hardware keeps the tool box as secure as a safe.

The "Vector T Latch" is number one in durability. It comes with a (standard) built in cylinder lock and two keys.

"Super Springs" provide for a self-lifting door on the chest style boxes.

With a $\frac{3}{4}$ " gutter and "Seal Tight" weather stripping – weather-tight.

The heavy-duty universal mounting brackets keep your tool box secure.

Poly Chest Box:

3 standard sizes:

T50CHMIN - 20" x 19" x 50" 42 lbs.

T36CHMIN - 20" x 19" x 36" 30 lbs.

T24CHMIN - 20" x 19" x 24" 27 lbs.

Bracket Kit: Part #104304 - (250lbs. max)

Poly Underbody Box:

4 standard sizes:

T50UBMIN - 20" x 19" x 50" 49 lbs.

T36UBMIN - 20" x 19" x 36" 30 lbs.

T24UBMIN - 20" x 19" x 24" 27 lbs.

T18UBMIN - 18" x 18" x 24" 23 lbs.

6 STANDARD COLORS

***Custom colors available on large fleet orders.**

MINIMIZER PRODUCTS:
CUSTOM MUD FLAPS

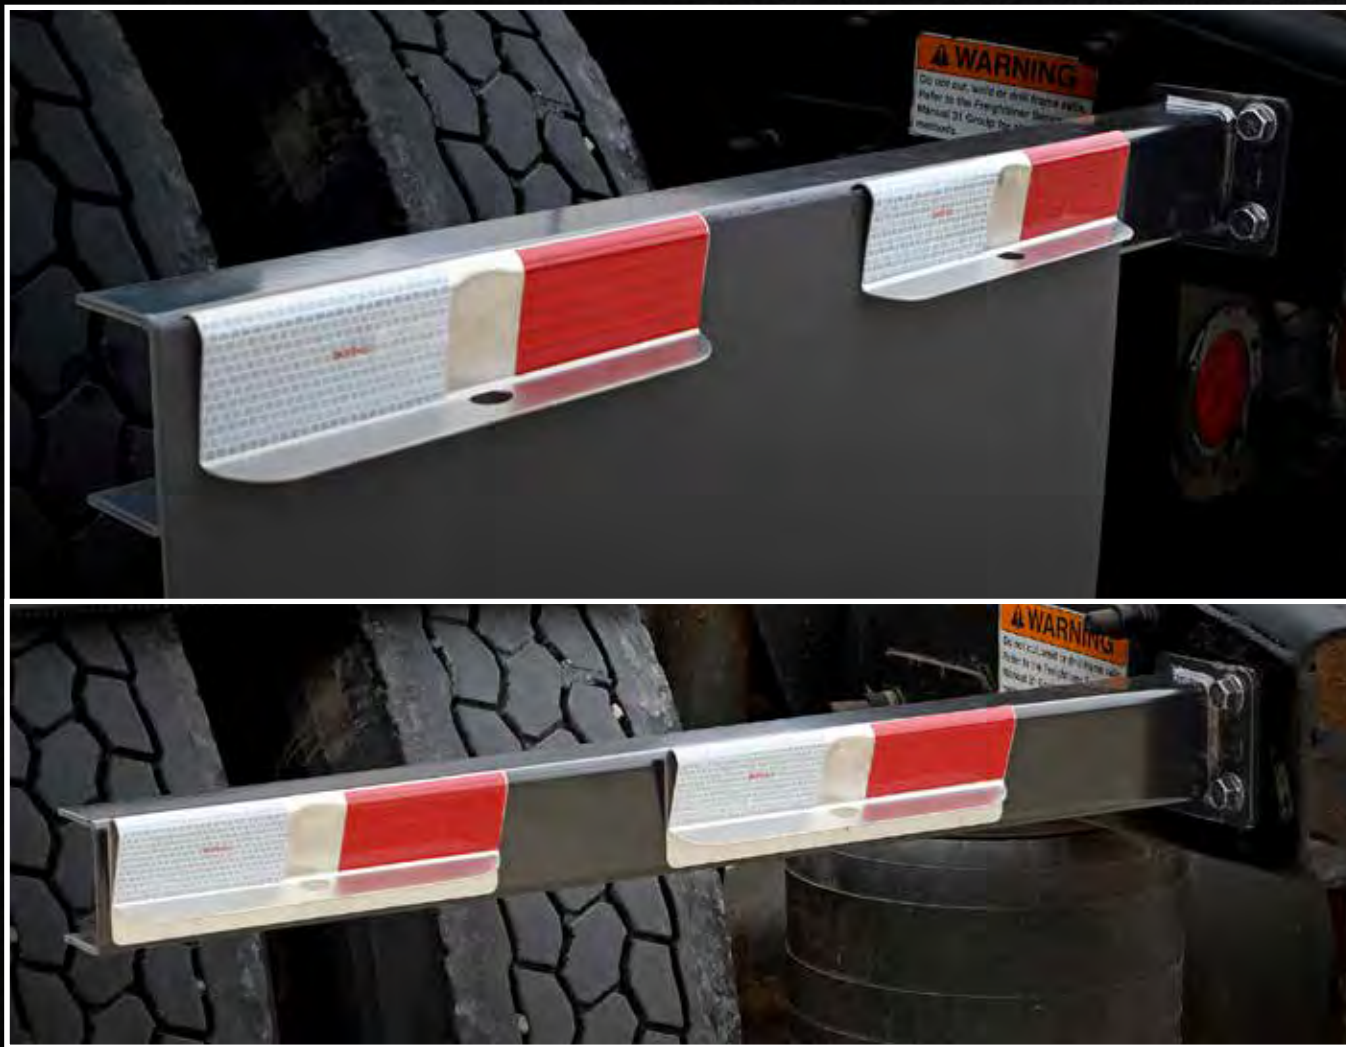

- Put your logo, telephone number or web site on display while protecting your rig and other drivers. (Most trucks average 10 million sightings per year per truck.)
- 1/4", 3/8" and 1/2" Poly or Rubber materials stay strong without curling on your trucks and trailers.
- Minimizer offers an entire standard letter character set in 2", 3", and 4" heights.
- Don't have a great company logo or the budget for custom plates? Choose from our large selection of stock art images.
- We offer a wide variety of heat stamp foil colors in an effort to match your company logo as closely as possible.
- These truck mud flaps will last for years without fading or tearing.
- We're fast and extremely competitively priced – often our custom printed flaps are less expensive than "off the rack" flaps.

GRAPHIC SERVICES

We offer complete graphic services for your design, typesetting and/or proofing needs. Custom plate requests will require high resolution artwork, preferably in vector format. If high resolution or vector artwork is not available, additional art recreation charges may apply.

MINIMIZER PRODUCTS:

FAST FLAP SYSTEM

RELEASABLE MUD FLAP HANGERS & MOUNTING BRACKET SYSTEM

Allows mud flap to release free without causing damage to the flap - hanger bracket - or equipment! Reinstalling the mud flap only takes seconds using a standard screwdriver. Fast Flap hangers (Part # 101227) sold individually or as a complete set with bracket system (Part # 103022). Each complete set includes 4 hangers, 2 bracket arms and all necessary mounting hardware.

Fast Flaps secure mud flaps without creating any holes in the flap or sacrificing strength. It takes more than 500 lbs of pressure to detach a mud flap from the Fast Flaps stainless heat tempered spring steel bar, and the result doesn't damage the flap.

Part# 101227 - Fast Flap Hangers

Part# 103022 - Fast Flap Hangers & Mounting Brackets

BACKED BY MINIMIZER'S LIFETIME WARRANTY!

DURABLE - All stainless steel clamp construction, heat tempered to spring steel for ultimate durability.

SECURE - Mud flap fastens in with over 500 lbs of spring steel clamping force.

SAVE MONEY - No damage, no shop labor, no down time and no DOT fines due to missing or destroyed mud flaps!

PROVEN PRODUCT - Used on owner operator, fleet, municipal and DOT vehicles throughout North America!

INDUSTRY APPLICATIONS - For both on-road and off-road trucking including dump trucks, cement mixers, asphalt, block, logging, roll-off, and garbage trucks. Also great for freight haulers that often experience mud flap damage.

MINIMIZER PRODUCTS:

TRAILER SLICK PLATE

**LOSE THE
GREASE!**

The Minimizer Trailer Slick Plates promote a cleaner environment by removing the need for greasing the trailer coupler plate and is a good alternative when you cannot use the Minimizer 5TH Wheel Slick Plate*.

- Reduces wear on 5th wheels & Upper Coupler.
- Eliminates the need to grease.
- Installs on existing and new trailers.
- Increases steer tire life.
- Easier trailer handling for drivers.
- A strong, self-lubricating solid polymer plate.
- Designed for frequent hook and drop applications.
- Available in many different sizes.

***Warning: DO NOT use a Minimizer 5th Wheel Slick Plate, Trailer Slick Plate, Slick Disk, or a Mfg Low Lube 5th Wheel Topplate in conjunction with one another. Doing so could cause a coupling failure. DO NOT INSTALL the Trailer Slick Plate if it extends past the front edge of the trailer or the upper bolster plate.**

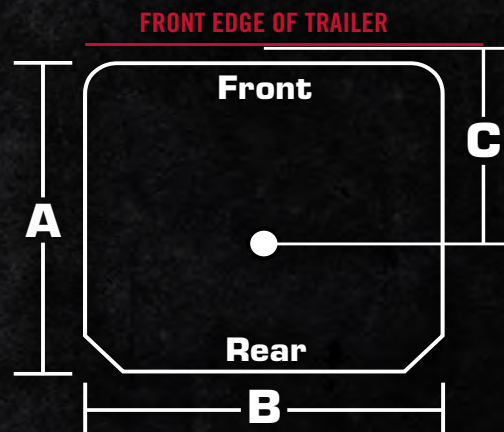

NOT SURE WHICH STYLE WILL FIT?

Use the height, width, and king pin setback dimensions to help!

A: Height

B: Width

C: KP Setback

KP Setback = Measurement from the front edge of the trailer to the center of the king pin.

CALL 1-800-248-3855 OR VISIT WWW.MINIMIZER.COM TO LEARN MORE ABOUT CURRENT AVAILABLE TRAILER SLICK PLATE MODELS AND FUTURE RELEASES!

MINIMIZER PRODUCTS:
SLICK DISK

SLICK. JUST LIKE THE REST OF OUR PRODUCTS.

- Protects the 5th wheel against friction and wear that can be caused by normal towing
- Nearly eliminates the need for greasing the face of the 5th wheel plate
- Installs in minutes
- Disk comes with clip (Part# PACCSLICKCLIP)
- Please reference Part# ACCSLICK32ASSY

LED LIGHTS

4" ROUND LED CONSISTS OF STOP, TURN & TAIL LIGHTS

Our 12 diode LED lights are brighter and therefore safer than any incandescent light on the market. No more "burned out" tail lights... if one of the 12 diodes should ever fail, 11 are still on the job. This standard 4" model is made to perfectly fit the openings of our fender light box option.

Included with your LED light purchase is our black poly mounting grommet. The grommet keeps your light secure and fits perfectly into our fender openings.

Kit also includes 6 chrome bezel trim pieces. (As shown in picture)

- Please reference Part# 102574

MINIMIZER PRODUCTS: **LIGHT PANELS**

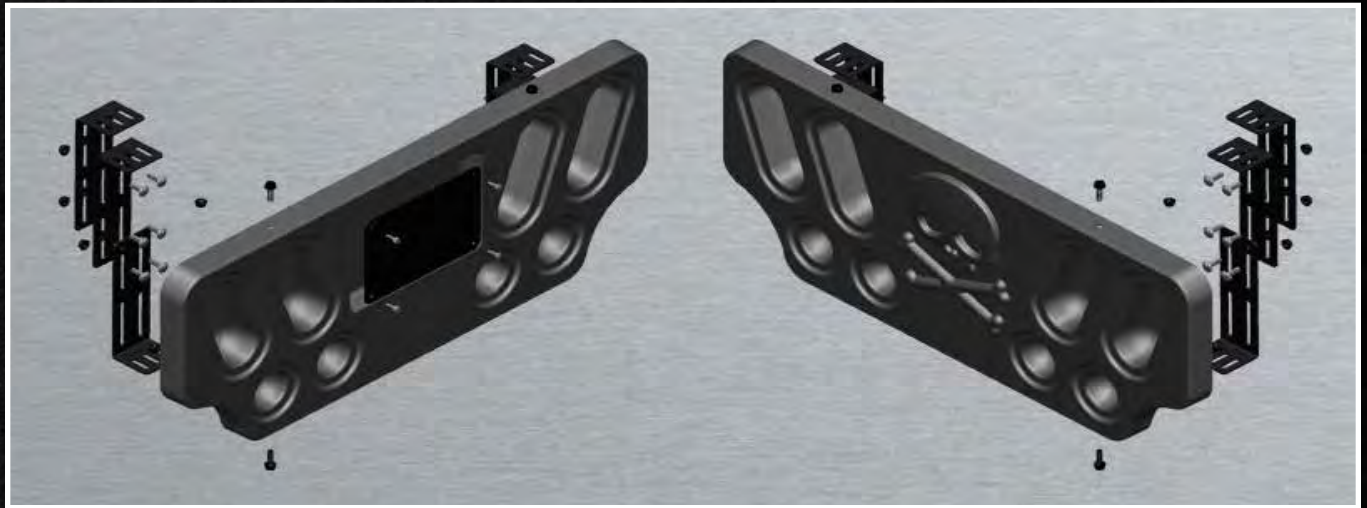

Minimizer's Rear Center Light Panels are one of the easiest and most affordable ways to customize your rig! Our light panels are offered in the same material and finish options and made from the same high density polymers as our Minimizer Poly Fender Line. They will never fade, never rust, never stress crack, and will never need to be polished.

The Rear Center Light Panel mounts to the rear of your truck frame and holds a total of 8 lights (4 - 6" x 2" angled oval encasements & 4 - 2" round encasements). The Open Cavity Light Panel features a decorative mounting plate that can feature your company logo (sold separately). All Minimizer Rear Center Light Panels are TESTED & TORTURED, and carry the Minimizer Lifetime Guarantee!

Installation is easy using the Minimizer Rear Center Light Panel Bracket System - (Part# 100964)

MINIMIZER PRODUCTS:
LIGHT BOXES

Minimizer Light Boxes are a rotationally molded sealed box made from a high density polyethylene and are available in three different styles: Single Round, Double Round, and Oval Light. Ideal for OEM's looking to reduce manufacturing costs, our composite light boxes are also lightweight, extremely durable and non-corrosive. Light boxes can be mounted to a wide range of truck, box, trailer, and equipment applications and are covered by Minimizer's Lifetime Warranty.

The light box will require a light grommet or mounting flange for installation of lights (not included).

IN THE TRUCK

RESPECT THE DRIVER.

A simple request, but one Minimizer takes seriously.

In the old days, fuel was a fleet's most costly expense, but no longer; that description now applies to the person behind the wheel, and with fleets struggling to recruit and retain drivers, never has it been more important for a company to show drivers the respect they deserve.

The Minimizer Long Haul Series™ line is designed with a driver's health and safety in mind. Whether it is our seat, which comes standard with 14 features, or our mattress, which is comprised of all-natural latex, Minimizer spent the time to make these new products as perfect as humanly possible. Not just because it is important, but because it is the right thing to do.

The ever-expanding line of Minimizer Custom Molded Floor Mats also serves each and every driver well. Minimizer engineers scan the interior of each truck so we can construct our mats as a full coverage tray system, which not only protects the floor, and also makes removal and cleaning of the mats super easy. After all, time is money, and these mats will save truckloads, because a damaged floor will cost you whether you own or lease the vehicle.

A truck driver's job is tough, with long days and time spent far away from family and friends. For that reason, the comforts of the cab are not an expense – they're an investment.

RESPECT THE DRIVER, EARN THEIR RESPECT IN RETURN.

MINIMIZER PRODUCTS:

TRUCK SEAT SYSTEM

THE LONG HAUL SERIES TRUCK SEAT SYSTEM!

The Minimizer Truck Seat System is designed with the driver's health and safety in mind. Leveraging decades of research in seats and suspensions by Isringhausen, an industry leader in seat manufacturing, Minimizer has incorporated ergonomics, safety and whole body health into one "system" that provides all of the desired features requested by professional drivers, and more! The Minimizer Truck Seat System meets the physical and functional demands that are inherent to operating big trucks. We are so sure that our seats will provide the comfort, support, safety and durability you require, we cover these seats with our Minimizer Lifetime Warranty.*

MINIMIZER PRODUCTS:

CUSTOM MOLDED FLOOR MATS

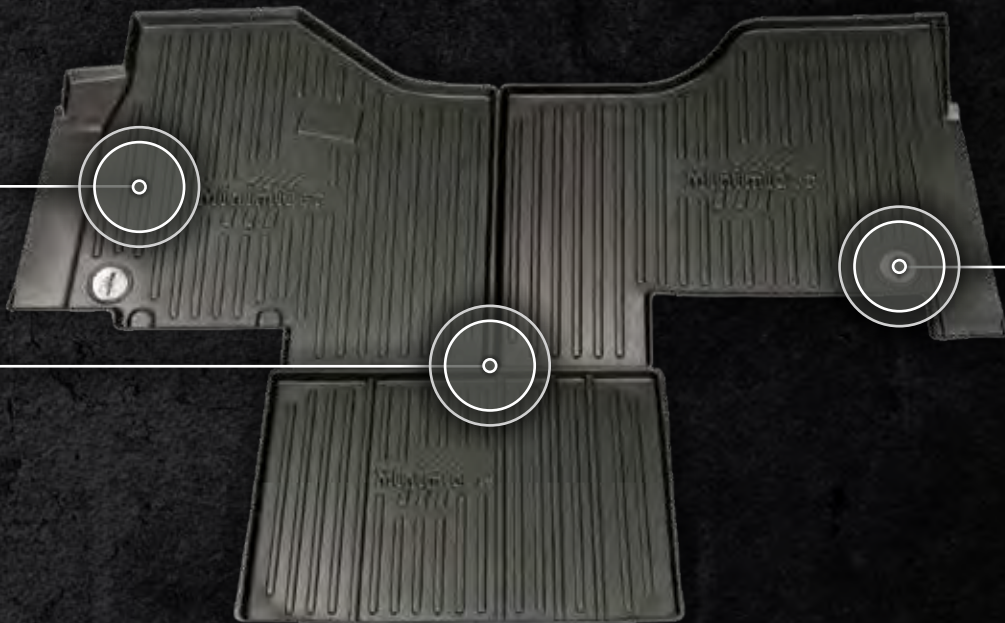

Whether it is the mud off your boots or your morning coffee, Minimizer Custom Molded Floor Mats keep the cab floors of all major OEM makes and models protected from the daily abuses of demanding jobsites and endless miles on the road.

The engineers at Minimizer use cutting edge technology to scan the interior measurements and angles of each specific make and model semi cab to ensure an exact fit. A retention hook mounted to the base of the stick shift or the driver side floor to keep your floor mats in place. Protect your investment and reduce in cab corrosion, potentially saving you a major headache down the road.

Made out of a proprietary blend of heavy duty thermoplastic, the textured surface will ensure your boots always get a solid grip. The ribbed design channels fluids, road salt, and other debris from interfering with drivers feet.

Our 2 and 3 piece tray systems were designed to be removed easily for quick cleaning. In a matter of seconds you can have your Minimizer Floor Mats rinsed off and reinstalled so you can get your truck back on the road.

Backed by our Lifetime Manufacturer's Warranty, Minimizer Floor Mats are designed to hold up to the daily abuses of the heavy duty trucking industry and will not break or crack under extreme conditions.

MINIMIZER PRODUCTS: **MATTRESSES**

MINIMIZER™ LONG HAUL SERIES MATTRESS

The perfect combination of resilience and luxurious comfort. A professional driver needs the proper support and pressure point relief to get a good night's rest. With this mattress, you'll sleep better at night and wake up feeling well-rested.

Studies show that sleep quality is even more important than sleep quantity in protecting good physical, mental and emotional health in people of all ages. A body contouring mattress that helps keep the spine aligned is also helpful for people with chronic back pain.

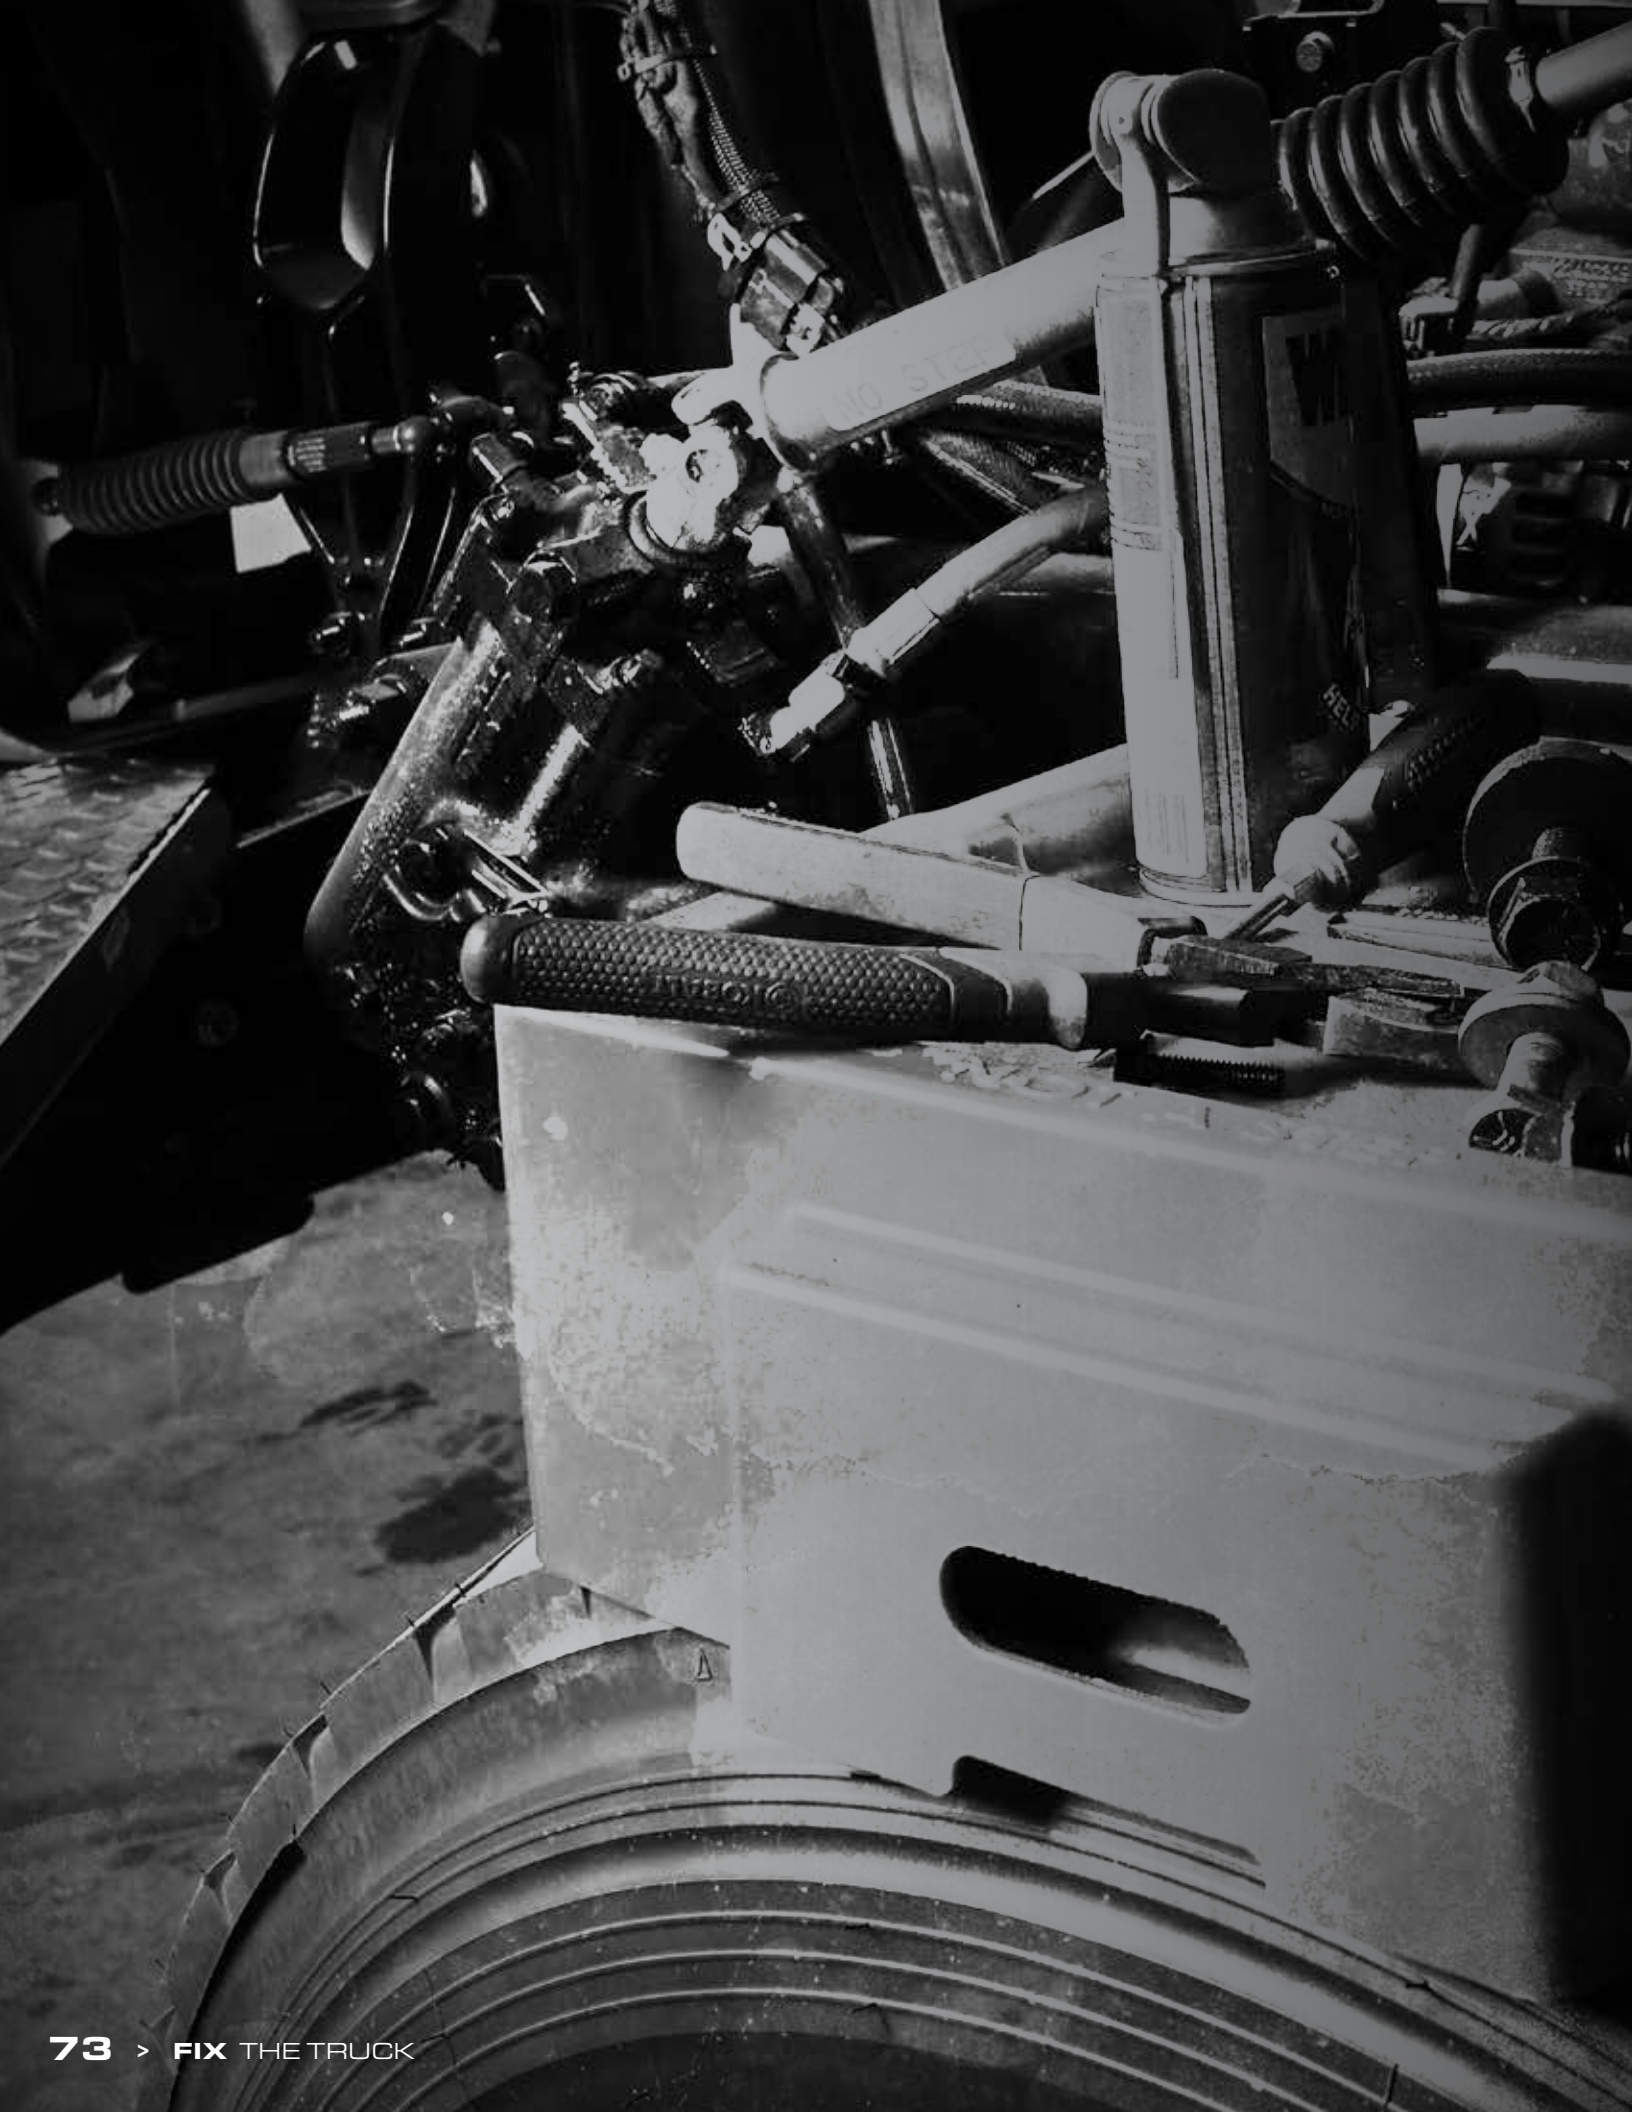

Part#	Dimensions	Part#	Dimensions

FIX THE TRUCK

Minimizer respects the driver but does not ignore the demanding work done by techs and mechanics across the heavy duty industry. Without these valuable people, trucks would not run, goods and services would not be rendered, the economy would suffer, and the country would be in much worse shape.

Due to the shortage of diesel mechanics, it is critical that fleets show trained techs the respect they deserve, which includes providing all the necessary tools they need to perform the job. This goes well beyond offering the usual wrenches, impact drivers and computer monitors, but includes items that may not come standard in the shop.

Diesel mechanics must have a space to set their tools when they are working on the truck, and while metal

tool benches are adequate, their size and weight can be prohibitive. To offer the best possible workstation, techs need tools in close proximity, which is where Minimizer work benches and tool caddies come into play.

Need assistance in the shop? The work benches line can accommodate a tech working under the hood or near the rear axle. Helping a trucker stranded roadside? The tool caddy bracket can fit over a set of dual tires, one wide-based tire, or the rails of a flatbed truck.

These products are versatile, durable, and they make a tech's job easier. Oh, and because they are constructed utilizing the same proprietary material found in our fenders and floor mats, they also come with the Minimizer Lifetime Guarantee.

MINIMIZER PRODUCTS:

SINGLE TIRE WORK BENCH

The Minimizer Single Tire Work Bench sits directly on top of single tires making all your tools readily accessible while working on your truck. With almost 2 sq ft of surface area, the Single Tire Work Bench has enough space to keep everything you need to finish the job within arms reach.

The Single Tire Work Bench also works on flat surfaces and can be inverted to be used as a carrying bin. Like all the products in the Minimizer Maintenance Line, the Single Tire Work Bench has been thoroughly TESTED & TORTURED and comes with a LIFETIME GUARANTEE!
